Applicants will also need a current CPIC

If selected for training, volunteers will be required to commit to a minimum of 1 year service.

Workshop Description:

Restorative Justice: Guiding Principles for Schools and Communities

How do we respond meaningfully to harmful or criminal actions? Based on the principles of restorative justice, this workshop offers a framework for answering this question in your own context. The philosophy of restorative justice invites people to look beyond a merely punitive view of justice and discipline. Instead, it focuses on the needs of everyone involved, emphasizing direct accountability, reparation, prevention, dialogue, and in some cases, renewed relationship. If you work in a school, community, government, or other organizational setting and make decisions about how to respond to harmful actions, this workshop will provide you with insights for incorporating restorative justice principles into your environment.

Topics Include:

- What is Restorative Justice? - What Does Justice Require?
- Restorative Justice Processes - Punishment and its Limitations
 - Applications Beyond the Criminal Justice Settings
- Social Connection, Shame, and Behaviour - Models of Restorative Discipline
- Misperceptions of Restorative Justice - Restorative Justice Values

Spaces are limited to 15 approved participants
